

PROFILE

I am seeking the position of product owner where my technical and managerial skills will be fully used. For the last 7 years I've been leading large projects, planning sessions, coordinating staff, managing relationships with clients, participating in design sessions and managing migrations.

KEY SKILLS

Agile/SCRUM methodologies, product lifecycle management, feature prioritization, user story creation. C++, database optimization, QA practices, API integration (e.g., Facebook, Instagram, Yelp). Team leadership, mentoring, stakeholder management, cross-functional collaboration. JIRA, Confluence, Git, SQL, cloud services (AWS).

ADRIAN PUCEK

EDUCATION

2015 – 2021 WSB University
Project management (M.Sc.)

PROFESSIONAL EXPERIENCE

IX.2023 – XII.2024 Glorious Gaming
Technical Software Product Owner

- Directed the end-to-end software development process for gaming peripherals (keyboards and mice), ensuring high-quality deliverables aligned with customer needs.
- Managed a SCRUM team of 10 developers, fostering collaboration and resolving roadblocks to ensure timely delivery.
- Implemented best practices in QA, design, and development processes, increasing software stability by 25%.
- Acted as the main liaison between technical teams and non-technical stakeholders, translating requirements into actionable tasks.
- Defined and prioritized product features, aligning them with market trends and user feedback.

IX.2022 – IX.2023 HiPets LTD.
VP Product

- Spearheaded the creation and launch of HiPets 2.0, a pet care booking platform, from concept to production within 8 months.
- Introduced and institutionalized SCRUM methodology, improving team productivity and delivery cycles.
- Conducted user research and competitive analysis to define product roadmap and prioritize features based on customer needs.
- Coordinated efforts across engineering, design, and marketing teams, ensuring alignment on goals and timelines.

I.2018 – VIII.2022 Booksy Inc.
IT Project Manager, Product Owner

- Delivered Booksy 3.0, a major product update, by overseeing the complete development lifecycle, from planning to release.
- Directed multiple teams, including integrations, core, and mobile, comprising 30+ developers, designers, and QA specialists.
- Led successful integrations with platforms such as Facebook, Instagram, and Yelp, expanding the platform's functionality and user reach.
- Facilitated daily SCRUM meetings, sprint planning, and retrospectives, maintaining a high level of team efficiency.
- Presented progress and results to executives and external partners, ensuring transparency and alignment.

IV.2017 – XII.2017 - Nokia Corporation

Senior C++ Developer

- Developed and maintained algorithms for BTS cell load balancing.
- Ensured high standards in code quality through rigorous testing and peer reviews.
- Worked closely with system architects.

I.2016 – III.2017 - Asseco

Senior C++ Developer

- Designed and developed Oracle database add-ons using C++.
- Enhanced system responsiveness by refactoring legacy code and implementing efficient algorithms.
- Provided technical support and comprehensive documentation for developed solutions.

XI.2014 – X.2015 - Intebuco Poland

Software development manager / C++ developer

- Designed and implemented iTools, a custom application for tool management, enhancing operational efficiency.
- Led a team of developers, coordinating project tasks and ensuring timely delivery.
- Worked directly with clients to gather requirements and deliver tailored software solutions.

VI. 2007 – XI.2015 Projekt Info Sp. z o. o.

Small business owner / C++ developer

- Designed and implemented software tailored to the needs of 300 hotels, boosting their operational efficiency.
- Built a recognizable local brand, growing the client base by 50% within five years.
- Led sales and technical teams, ensuring consistent delivery of high-quality services.
